YOUR CITY-TRIP MAGAZINE

LONDON, AN ICONIC CITY WITH A GREEN HEART

London has long been celebrated as a city of historical landmarks and vibrant culture. However, beyond its iconic sites, the city is also redefining itself as an oasis of green spaces and sustainable practices.

A CITY OF ICONIC LANDMARKS

1- St Paul Cathedral

2-The National Gallery

3-The iconic London Eye

From the charms of Big Ben and Buckingham Palace to the architectural marvels of Tower Bridge, the London Eye or modern skyscrapers like the Shard, the Walkie-Talkie or the multi-award-winning Gherkin recognized for its energy efficiency, London is a blend of history and innovation. Visitors never tire of exploring the National Gallery with its classical architecture, the Science Museum, the Natural History Museum, or the Imperial war Museum. They're all incredible! The heritage is rich and this blend of past and present makes London a unique destination.

4-Houses of Parliament and the well-knowN Big Ben

Experience captivating 360-degree views of the city as you sit atop the London Eye, witness London from a bird's-eye view! And don't miss one of the best examples of baroque architecture with St Paul's Cathedral. Also, make sure to climb the stairs to reach the dome's top, it's well worth it!

GREEN SPACES AND URBAN NATURE TAKE A WALK ON THE GREEN SIDE !

Right in the heart of the city, St James park is the oldest royal park

With over 3,000 parks, gardens, and nature reserves, London is one of the greenest cities in the world : it's easy to find nature at nearly every corner, and besides, each Londoner can access green space within a 10-minute walk from home !. Hyde Park, Regent's Park, St James's Park and its playful squirrels, or Richmond Park and its majestic deer offer a peaceful escape from the city's rush. And let's not forget London's waterside charm : The canals, Little Venice...Embark on an unforgettable cruise along the Thames, gliding from the iconic Tower Bridge to the majestic Big Ben!

SUSTAINABILITY AT ITS CORE

But London isn't just green in its landscapes, London is also a forward-thinking metropolis where green policies shape a sustainable future .The city aims for carbon neutrality by 2030 and is actively reducing its carbon footprint. Electric buses, cycling paths, and sustainable architecture are now part of London's identity.Thanks to the Londoners' involvement (community gardens, pocket parks, food-growing projects...) the city actively tackles the climate crisis and demonstrates its commitment to a greener future.

Definitely, London perfectly blends iconic history with green innovation, making it a trendy destination where you can capture both tradition and the promise of a sustainable future.What else?! Félix M-D
